## PROFILE

Highly motivated Sound Engineer with a strong background in Music Production, Composing, Mixing and Mastering. Studied at Berklee College of Music, gaining expertise in Sound Design For Games, Composing Game Music, and branding strategies applicable to various industries. Experienced in Orchestral Compositions, Sound Engineering, and Sound Design For Games.

## WORK EXPERIENCE

**Recording Studios: "Insound", "KOS Sound", "IVA Records", "Jgarko"**  
Producer / Sound Engineer

As a Producer at Jgarko Music Studio, I developed a strong ability to connect with artists, and clients, helping them creating the best quality musical projects. Working in a dynamic studio environment, I was responsible for Writing (composing), Recording, Mixing and Mastering Projects that every client received top-tier service and support.

- Connected effectively with artists and producers.
- Identified premier solutions for musical projects.
- Ensured top-tier service and client satisfaction.
- Had experience with classical, ads and game music compositions

### Recording Studio "ARRS"

Mixing & Mastering Engineer

- Worked on mixing live recorded orchestral projects
- Monitor and maintain quality consistency and providing top-tier audio product.
